**Microsoft** Surface

New Surface Go 2
for Education

What's new in Surface Go 2

A larger, brighter, and more brilliant touchscreen display in the same compact size

A faster companion to run the essential apps you rely on every day: With 8th Gen Intel Core m3 and Pentium processors, Surface Go 2 has options faster than previous generations.[6]

Plenty of unplugged power with improved all-day battery life (up to 10 hours[7]) to keep you going wherever you are, and Fast Charging to 80% in just over an hour when connected to Surface Dock.[8]*

New choice of colors** to match your style, with the durable Surface Go Type Cover in Poppy Red and Ice Blue

Make every moment in the classroom count

A larger, brighter, and more brilliant touchscreen display in the same compact size so you can leverage existing investments.

A faster companion to run the essential apps you rely on every day, with 8th Gen Intel® Core™ m3 and Pentium® processors to run full desktop apps.

Plenty of unplugged power, with improved all-day battery life[1] to empower all-day learning and Fast Charging when connected to Surface Dock*[2].
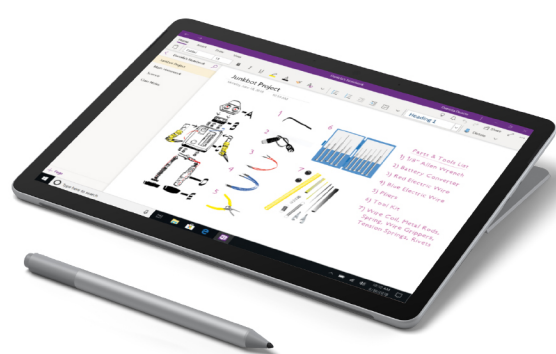

No Wi-Fi, no problem. In addition to Wi-Fi, optional LTE Advanced[3] delivers hassle-free and secure connectivity.
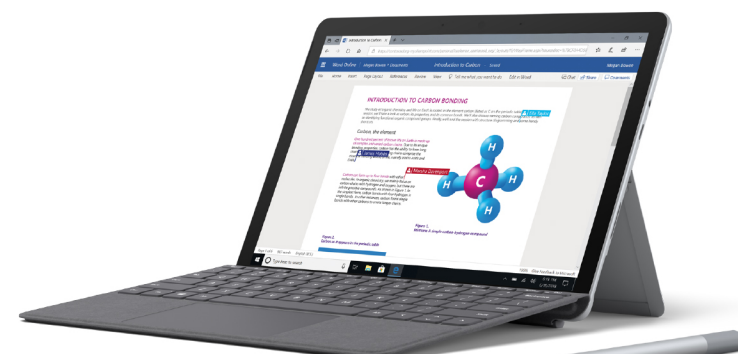

As versatile as the students who use it

Collaborate in groups. Map the edges of the universe.
Surface Go 2 helps students balance the performance and portability they need.

Make notes on grammar homework, review a script for the school play, or complete math problems naturally with Surface Pen.*

Record a Flipgrid* response to the book report and watch the Stream video of yesterday's lesson on the larger, brighter, and more brilliant touchscreen display.

Type an essay more comfortably with a backlit keyset on the Surface Go Type Cover* and navigate the web for research with the glass trackpad.

Transform classroom time

Incorporate a broader range of educational experiences

Windows 10 desktop apps and device features unleash deep learning and inspire creativity.

Inspire a passion for STEM by empowering students to take advantage of full software, apps, and web tools.

Students easily connect to printers, projectors, cameras, digital microscopes, robots, keyboards, and other peripherals.

Improve classroom time with Microsoft Education

Stay focused on teaching with reliable devices that enhance the Microsoft 365* for Education experience.
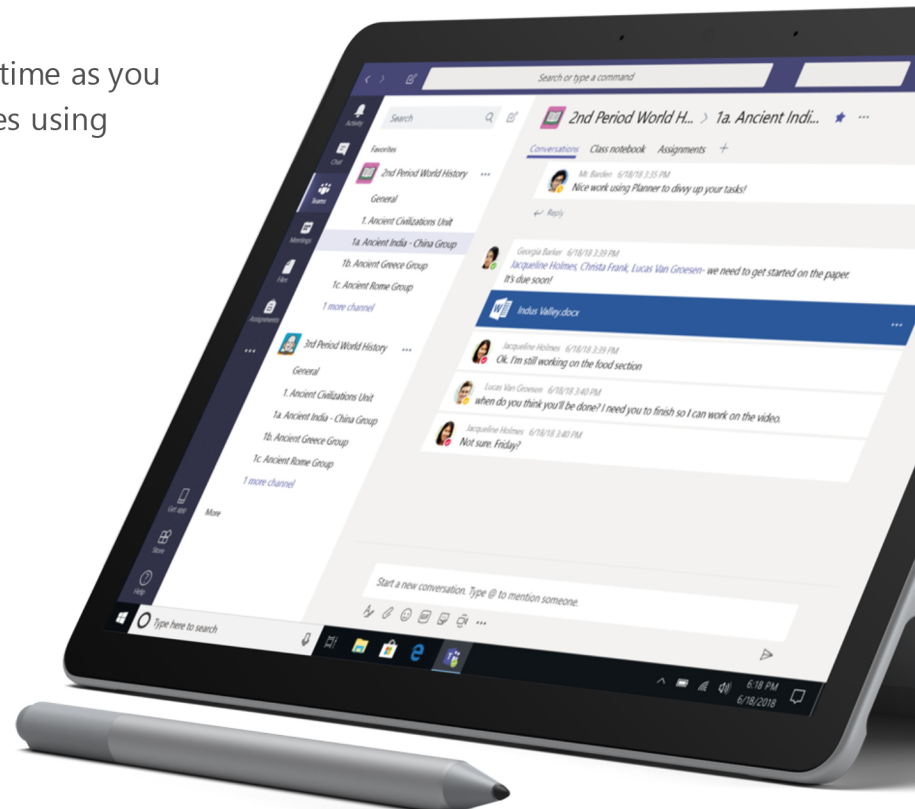

Surface Go 2 works seamlessly with Microsoft Education tools like Microsoft Teams, which offer assignment services, gradebooks, and rubrics to take your classroom digital.

Customize your lessons with devices optimized for inking, modern learning, and future-ready skills.

Empower inclusive classrooms

Immersive Reader** helps students at all levels get better at reading. Change spacing, read text aloud, and sound out words by syllable. Available in Microsoft Teams, Microsoft OneNote,* and Microsoft Edge.*

Get everyone on the same page in real time as you communicate with students and relatives using Microsoft Translator.**

Create a safe, manageable environment

Full-featured, student-ready devices that are easy to deploy and manage

Keep devices secure with updates via Microsoft Endpoint Manager,* restrict access to only the apps students need, and find custom-designed accessories for every task.

Protect your investment with an ecosystem of third-party accessories like rugged cases, screen protectors, and more.

Reduce downtime with Advanced Exchange, an expedited replacement service, at no additional cost.[4]

Stay in control with trusted Microsoft Education tools

Make the most of your technology investments with devices that optimize the Microsoft 365* experience, including Windows, Office, Minecraft*: Education Edition, and more.

Prepare students for tomorrow's opportunities with the technology platform they'll need for the future.

The Windows you know for more secure students and classrooms

Windows 10 Pro delivers the security IT teams trust.

Streamlined security updates delivered remotely or in batches.

Privacy you should expect: safe searches and no student re-targeting.
